

Cultural, National, and Individual Constructions of COVID-19

Routledge Studies In

The COVID-19 pandemic has had a profound impact on societies worldwide, affecting every aspect of our lives. This book examines the cultural, national, and individual constructions of the pandemic, providing a comprehensive analysis of its impact on societies worldwide.

The book brings together leading scholars from a variety of disciplines to explore the different ways in which the pandemic has been understood and experienced. They examine how the pandemic has shaped our understanding of culture, national identity, and the individual self. They also explore the ways in which the pandemic has impacted our social and political institutions, our economies, and our relationships with each other.

Negotiating the Pandemic: Cultural, National, and Individual Constructions of COVID-19 (Routledge Studies in Health and Medical Anthropology)
