The Crisis of the European Left

The European left has been in decline for decades. The social-democratic parties that once dominated European politics have lost ground to both the center-right and the far-right. This decline is due in part to the left's failure to adapt to the challenges of globalization and neoliberalism.

The left has also been weakened by its divisions. The rise of new social movements has led to a fragmentation of the left, and the traditional divide

between social democrats and communists has made it difficult for the left to unite behind a common program.

The Internationale: A History and a Hope

The Internationale is a global socialist organization that was founded in 1864. The Internationale has a long and proud history of fighting for the rights of workers and the oppressed. In recent years, the Internationale has been revitalized by the rise of new social movements and the growing popularity of socialist ideas.

Internationale and the Crisis of Europe argues that the left must embrace the Internationale as a vehicle for internationalism and solidarity. The authors believe that the Internationale can help the left to overcome its divisions and to develop a common program for the future of Europe.

number of concrete proposals for how the left can build a more sustainable and just Europe.
